

QUALITY SPECIFICATIONS OF PEEL Ply

Brand PEEL Ply, with more than 30 years of experience in the timber business is the partner of choice for some of the most reputed designers and architects in India. Made from 100% pure Gurjan timber imported from Myanmar, this plywood is the definition of strength and durability. Take a look into the quality specification that makes PEEL Ply the ideal choice for any extensive commercial or household projects.

PURITY IN QUALITY

PEEL Ply wood is made from 100% pure Burmese Gurjan wood not less than 60 years old. It is this organic purity that accounts for its unsurpassed strength and durability. The panel and core veneer sheets come in a form of a single sheet that eliminates any chances of gaps or overlaps between the layers. The sturdiness is further enhanced by superior quality adhesive that is used to bind the core veneers and panel veneer. To add on to this, the face veneer comes with a thickness of 1.2mm as opposed to the usual 0.3mm.

VERSATILITY

To annex a place that houses a vast range of plywood sizes and thickness is rare. PEEL Ply is that rarest of the rare brands that supplies plywood in all its versatility. PEEL Ply plywood comes in the thickness of 6mm, 9mm, 12mm, 15mm and 18mm. Be it any project, our range of products is crafted to fit every requirement.

SPECIAL ATTRIBUTES

For years on PEEL Ply has been the primary choice of many renowned architects and designers as a result of some discrete features that no other range of plywood can offer in a whole. The features that make PEEL Ply the pioneer are

- 100% Waterproof and 72 Hours Boiling Resistant.
- Termite and Borer Proof.
- Strong immunity to moisture and micro-organisms.
- High impact resistance.
- Surface dimensional stability.
- High strength to weight ratio.
- No corrosion.

FLEXIBLE PLYWOOD FOR COMPLEX DESIGNS

Also known as Flexi Ply of brand PEEL Ply is constructed from several veneers all running in the same direction. This accounts for its unmatched flexibility without any compromise on strength. This flexible plywood is built to hold its shape without any additional support thereby making them extremely economical.

Flexi Ply too is made from the finest and purest Burmese Gurjan wood and thus in itself lends an aura of luxury to the entire ambience. Apart from possessing the finest of all qualities it also has a strong immunity to micro-organisms and is 100% moisture proof.
